EDUCATION

Azusa Pacific University

Bachelor of Science in Computer Science

Azusa, CA

Expected June 2030

CERTIFICATIONS

ISC2 Certified in Cybersecurity (CC)

ISC2

EXPERIENCE

Azusa Pacific University

IT Support Technician

Azusa, CA

August 2026 – Present

- Support university IT operations while training on technical support procedures, systems, and troubleshooting workflows.

TECHNICAL PROJECTS

Linux Security Lab | *Linux, Git, GitHub, Markdown, VS Code*

- Completed a 10-part hands-on Linux lab covering Linux navigation, file management, users, groups, permissions, ownership, processes, and networking.
- Authored technical documentation in Markdown with supporting terminal screenshots for each lesson.
- Managed the project with Git and GitHub while building a professional portfolio repository with structured documentation and screenshots.

Personal Budget Tracker | *HTML, CSS, JavaScript, Git, GitHub Pages*

- Built and deployed a responsive budgeting web application using HTML, CSS, and JavaScript with GitHub Pages.
- Implemented income and expense tracking, budgeting, transaction filtering, recurring transactions, interactive charts, and persistent browser storage using Local Storage.
- Documented development across 10 milestones using Git and GitHub, demonstrating version control, deployment, and project documentation.
