EDUCATION

Azusa Pacific University

Bachelor of Science in Computer Science

Azusa, CA

Expected June 2030

CERTIFICATIONS

ISC2 Certified in Cybersecurity (CC)

ISC2

PROJECTS

Linux Security Lab | *Linux, Git, GitHub, Markdown, VS Code*

- Completed a 10-part hands-on Linux lab covering Linux navigation, file management, users, groups, permissions, ownership, processes, and networking.
- Authored technical documentation in Markdown with supporting terminal screenshots for each lesson.
- Used Git and GitHub to manage version control and publish a professional portfolio repository.

Personal Budget Tracker | *HTML, CSS, JavaScript, GitHub*

- Developed a responsive budgeting application to track income, expenses, and account balances.
- Implemented transaction filtering, sorting, category management, and persistent browser storage using Local Storage.
- Maintained project documentation and version control using Git and GitHub throughout development.
